

BLACK BITS

Dora and Beth, as well as being a couple, are hackers and robbers. After their last heist they need to find a hiding spot. The only safe place is a house hidden deep in the wood, far away from digital connections. What happens there turns out to be something more disturbing and dangerous than the reality they are facing. They find themselves in a fight for their survival against the clock and where their fate is in the hands of the dark web.

Production: Minerva Pictures, Play Entertainment and Agresywna Band (Poland).
