# MATAPANKI

Ricardo is a punk who spends his days drinking and going to gigs with his two best friends. Despite his tough exterior, he has a softer side: he cares for his grandmother. After trying a strange alcoholic brew, known as Matapanki, Ricardo gains alcohol-fueled superpowers that activate every time he drinks the potion. Determined to change society, he sets out into action, but after a brutal mistake, his crusade spirals out of control, igniting an international conflict with him at the heart of the storm.
